

BobTail

Huck's swaged-on fastener with no break-off pintail. Corrosion resistant and installs with lightweight ergonomic tooling.

Sizes	3/16" - 3/8", 1/2" - 1" and 12mm - 20mm		
Materials	Steel, Aluminum, Stainless		
Grades	Grade 2	Grade 5 (Class 8.8)	Grade 8 (Class 10.9)

Huck 360

The engineered nut-and-bolt fastening system with a unique, embedded thread design for vibration-resistance.

Sizes	3/8", 1-3/8" and 10mm - 36mm
Materials	Steel
Grades	Grade 8 (Class 10.9)

C50L

Superior vibration resistance and durability for heavy-duty applications. Meets or exceeds all ASTM A-325 standards for shear, tensile and fatigue life.

Sizes	1/2" - 1-3/8"	
Materials	Steel, Aluminum	
Grades	Grade 5 (Class 8.8)	Grade 8 (Class 10.9)

Magna-Grip

Vibration-resistant, reliable grade 2 fasteners offering high uniform installed values with a wide grip range.

Sizes	3/16" - 3/8"
Materials	Steel, Aluminum

C6L® /C120L/C150L

The classic 6-groove locking fastener ideal for a wide range of applications. Available in grades 2, 5, and 8.

Sizes	3/16" - 3/8"		
Materials	Steel, Aluminum, Stainless		
Grades	Grade 2	Grade 5 (Class 8.8)	Grade 8 (Class 10.9)

Hucktainer®

Panel fastener that installs with consistent pressure, reducing crushing or crazing.

Sizes	3/8"
Materials	Steel

Huck® Structural Blind Rivets

HuckLok®

Wide 1/4" grip range, double-locking action clamps assembly from both sides for maximum joint integrity.

Sizes	3/16", 1/4"
Materials	Steel
Heads	Protruding, Truss, 100° Oval Countersunk

Magna-Lok®

Hole-filling fastener with excellent gap pull-out and moisture resistance. Solid circle lock creates internal lock that virtually eliminates pin push-out. Now available in 1/2".

Sizes	3/16", 1/4", 3/8", 1/2"
Materials	Steel, Aluminum, Stainless Steel
Heads	Protruding, Truss, 100° Flush

Auto-Bulb™

Features a tapered lead-in point for automated, high-speed assemblies. Forms a bulb directly on the sheet line, preventing pull-through. Available in stainless steel.

Sizes	3/16", 1/4"
Materials	Steel, Stainless Steel
Heads	Protruding, Countersunk

Magna-Bulb

Wide grip range fastener that forms a bulb directly on the sheet line. Offers a broader bearing surface.

Sizes	3/16", 1/4", 5/16"
Materials	Steel
Heads	Protruding, Truss, 100° Oval Countersunk

BOM®

Blind, Oversize, Mechanically locked fasteners. Unique push-&-pull installation design for ultimate locking strength from blind-side install.

Sizes	3/16" – 3/4"
Materials	Steel, Stainless

FloorTight®

Self-countersinking design for consistent installations in plywood and plymetal vehicle floor applications.

Sizes	1/4", 5/16"
Materials	Steel
Heads	Standard, Wide Flange, Plymetal, 90° Countersunk

Magna-Tite®

Has water-resistant sealant, for oversize holes and repairs. Large blind-side footprint for use in thin or low-strength materials.

Sizes	3/16", 1/4"
Materials	Aluminum
Heads	Protruding, Shavable, Low Profile, 100° Oval Countersunk
